Our product range includes cases and torches capable of surviving a range of extreme environments including: -

- High and low temperatures.
  - (-40°C to +99°C)
- Explosive environments.
  - (ATEX classifications)
- Immersion in Water.
  - (IP classifications)
- Military Environment Ratings.
  - (STANAG, MIL-STD)
- Air Travel.
  - (ATA classifications)

Our extreme environment case range includes rugged custom built cases capable of surviving air travel, exposed sea travel and use in the oil industry. These cases can be built to half or full flight spec as required.

We can also offer a range of ATA 300 rated cases in over 300 sizes with the option of being rated IP54.

Also we provide over 50 sizes of case rated up to ATA 300, IP67 and STANAG 4280. These cases offer the best protection for your equipment from small navigation software to complete computer suites.

In addition to our cases we supply torches rated for use in Zone 0, 1 and 2 explosive environments (ATEX classification).

**Custom Inserts**

The protection of your equipment relies on how it is stored in the case as well as the case it is in, with this in mind we are able to provide a range of customised inserts or dividers to protect your equipment for almost all our cases.

**Your Requirements**

We have over 25 years experience finding the right product for our customers so please contact us to discuss your requirements.
