We have extensive experience providing cases for security, monitoring and testing equipment. Our service includes the design of the insert to protect the equipment within the case and sourcing of an appropriate case be it a hard shell case or soft bag.

We can provide a range of hard shell cases for your equipment depending on the environments it will be used in, from executive cases to waterproof protective cases. Some of our cases can even be supplied with kits to allow interface panels to be fitted.

Or if more appropriate we can provide soft bags with features including: -

- Zips/Velcro/Clasps.
- Flaps and Pouches.
- Hardened Backs/Sides.
- Shoulder Straps.

Custom Inserts

For maximum protection of your equipment the insert is as important as the case, therefore we provide a range to suit your needs.

Inserts include: -

- Tooled and Prepared Inserts
- Pick n' Pluck/Matrix Foam
- Profile Foam
- Block and Locating Foam
- Dividers
- Panel Frames
