Our case range is the ideal medium for the storage, transportation and in situ use of AV equipment and accessories. Be it electrical cables, turntables, vinyl discs or lighting gear. We can supply the appropriate case with inserts.

For large or heavy items we have a selection of wheeled waterproof protective cases or we can custom build reinforced wheeled units to full flight spec. capable of being moved round a stage and surviving rough transport and handling (including air travel)

For smaller items in addition to the above options we have a range of waterproof protective carry cases and utility storage units which can be tailored internally to protect your equipment.

**Custom Inserts**

For maximum protection of your equipment the insert is as important as the case, therefore we provide a range to suit your needs.

Inserts include: -

- Tooled and Prepared Inserts
- Pick n' Pluck/Matrix Foam
- Profile Foam
- Block and Locating Foam
- Dividers
- Panel Frames

**Your Requirements**

We have over 25 years experience finding the right product for our customers so please contact us to discuss your requirements.
